

Dear Friends & Family,

We're excited to announce the first edition of the Project Yellow Card Student Leader Launchpad, a training program under our pioneering Project Yellow Card (PYC) initiative. Leveraging lessons and insights from industry leaders, this immersive training will provide young women with the tools they need to excel as future leaders in their communities and beyond.

Project Yellow Card: Building a Brighter Future

Project Yellow Card is a holistic and inclusive program focused on inspiring and supporting the next generation of African leaders. Through three key programs – an annual scholarship for exceptional female university students, an allied scholarship for outstanding male university students, and a student leader workshop training program – PYC creates pathways for future leaders to excel. Take [Nifesimi Agbede](#), for example; with our support, she became the first female president of the Pharmaceutical Association of Nigerian Students at the University of Lagos.

Spread the Word!

Help us equip the next generation! Share this opportunity with your network and encourage students to register.

Here's how you can make a difference:

Students: Rally your classmates and spread the word!

University Faculty: Connect us to student leaders on your campus

Individuals and Organizations: Make a donation

Join the Movement: Bring Project Yellow Card to Your Institution

Project Yellow Card is committed to creating a more equitable future by equipping young leaders across Africa. We're looking for passionate allies to partner with African Women on Board to bring the Project Yellow Card Student Leader Launchpad to universities across Africa. Together we can invest in the future of African leadership. Learn more about getting involved and partnership opportunities, by emailing: awb@africanwomenonboard.org
